

BREAKTHROUGH BLUEPRINT

MY COMMITMENT TO A HEALTHY DISREGARD FOR THE IMPOSSIBLE.

NAME Jonathan Kemey DATE 12/12/17 SPONSOR/SESSION UC LeaderStage 2017

What ideal future do I want to create, and for whom? **(VISION)**

I want a future where **STEM** education is taught effectively and equitably for women, racial minorities, and members of the **LBGTQ** community.

What challenging goals will result in a breakthrough toward this ideal future? **(STRETCH GOALS)**

A breakthrough would be to have every university adopt a paradigm that focuses on experimental and creative learning, while seeing representative enrollment as well.

What realistic goals will help me get started on my vision? **(MANAGEABLE GOALS)**

- Working on research that is developing new education paradigms and improving existing ones.
- Working with institutions like FIRST, Girl Scouts, etc. to increase representation.

With whom do I need to connect to ensure success for my vision and goals? **(RELATIONSHIPS)**

I should start by networking with faculty and those in the above non-profits to work with and mentor me on this journey.

What immediate steps will I take to jump-start this breakthrough? **(ACTION PLANNING)**

I will start by reaching out to Dr. Harker (an engineering ed. professor at UC) and my old FIRST mentor from high school. Also, I will do some preliminary research online and at the library.

DO NOT COMPLETE THIS BOX UNTIL DAY 5 AFTERNOON

MY CORE VALUES

Authenticity
Community
Fairness
Learning
Openness

Principles that guide my actions...

Enlightenment, connection, progress, impact, growth, depth, equity, engagement, perspective, adventure, curiosity, self-awareness

I want to be the kind of person who...

is always in a state of growth and challenges others to do the same and who is working for depth and meaning in impact and relationships.
